

Class "A" Structural Burn Trailer - 8 hrs.

This hands-on class is a live fire class using Class "A" burn materials. Students will see different fire growth stages, and learn proper ways to attack vented and unvented fires, using correct nozzles patterns, and ways to use hydraulic and positive pressure ventilation. This class will adhere to NFPA 1403.

Training utilizes the NDFFA Mobile Burn Trailer. Each session begins with a safety briefing which includes an orientation of the trailer, medical evaluation (pulse and BP for each student), followed by three evolutions under live fire conditions. NDFFA requires a minimum of five (5) Instructors to conduct live fire training. Training including instructor fee, mileage, hotel, and incidentals. Training will be scheduled based on availability of NDFFA mobile training unit and instructors.

Host Responsibilities:

- ★ At least 5 square straw bales for minimum 12 students. Additional bales may be required depending on number of students. If purchased, provide receipt to NDFFA within 30 days of training for reimbursement.
Must be straw, not hay. Must be square bales, not round.
- ★ At least 8-10 pallets.
- ★ Fire hydrant plus one Class A engine with 500-gallon, or greater tank.
- ★ SCBA refill capability.
- ★ Rehab (cases of water).
- ★ EMS/BLS on site for length of training.
- ★ Dumpster for burned material.
- ★ Portable toilet or restroom.
- ★ Minimum of 12 students, if not met, host organization(s) may be held responsible for the cost for the training including instructor fees, mileage, hotel, & incidentals.

Minimum Student Requirements

- ★ Full PPE
- ★ Working knowledge of Self Contained Breathing Apparatus (SCBA).
- ★ Clean shaven. Clean shaven means no facial hair is present where the seal of the air mask comes into contact with your face. Live Fire Instructors have been instructed to not allow students to participate in live fire classes who do not meet this clean-shaven definition above.
- ★ Students must 18 years or older
- ★ Consent to pre and post entry medical evaluation
 1. Pulse below 100 beats per min.
 2. Respirations...12-20 breaths per min.
 3. Temperature...Less than 99.9
 4. Blood Pressure...Less than 160 systolic and/or 100 diastolic
